DR. HENLEY'S or the Blood, and

A FABULOUS DISCOVERY, Worth Millions to the Human Fam-

ily-Celery as a Cure. The habitual daily use of this vegetable is much more beneficial to man than most people imagine. The writer, who is familiar with its virtues, is acquainted with many men and women who from various causes have become to much affected by nervousness that when they stretched out their hands they shook like aspen leaves, but by a moderate use of celery they became as strong in nerve as other aspen leaves, but by a moderate use of celery they became as strong in nerve as other people. We have known others to be cured of palpitation of the heart. To this we may add that we received of Dr. Heniey, of.Portland, Oregon, a bottle of "Celery, Beef and Iron." By close analysis we state the preparation called Celery, Beef and Iron is what it is represented to be, absolutely pure, and every one engaged in labor weakening to the nerves should use "Celery, Beef and Iron." We find also according to the formula received, each bottle is composed of Liebig's extract of beef, extract of celery, and pyrophosphate of iron bottle is composed of Liebig's extract of beel, extract of celery, and pyrophosphate of iron with condensed wine. These combined we pronounce the best known remedy for any disorder of the nerves or neuralgia. The most delicate nerves, even of birds, we give celery, how much better will it subserve the wants of the human family?—Prf. B. H. Openheigen in Journal of Chemistry. MANUFACTURED BY

GENERAL NOTICES.

Advice to Mothers.—Mrs. Winslow's SOOTHING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhea, whether arising from teething or other causes. Twenty-five cents a bottle.

SAN FRANCISCO, May 4th.—A rat-baiting match took place to day, the dogs being the lowest other causes. Twenty-five cents a bottle. d15-1yMWS

A strong effort is being made to obtain a commutation of the death sentence of J. W. Murray to imprisonment for life. There is bitter feeling against the murderer, and the general impression is that Governor Moody will not interfere. On November 18, 1882, Andrew Leonard killed his brother-in-law, Ambrose Patton, near Kalama, W. T., during a quarrel. The trouble originated in family matters. Leonard made his escape to Coos Bay, Or., and was not captured until a few months ago. He was tried yesterday and convicted of murder in the first degree. A DREARY FAILURE. Watsonville Pajaronian: It is beginning the extra session is a most dreary failure. It is truly an "extraordinary" session. Nothing has been accomplished except the passage of two appropriation bills. And the most prominent feature of the entire matter is that, outside of political circles, but little interest seems to be taken in the session. The people have no enthusiasm over it, they are not crying aloud—in fact a feeling of "don't-care-a-darnativeness" prevails. The Examiner got its extra sesion; the question now is, how is it going

We can never forget, to the Gov-ernor's credit, that his judgment was against it, and he was overborne, not by numbers but by the persistency of a few hot heads. And this is a left-handed compliment tohis ertebræ. * * All that remains is to fasten the responsibility. To this the Democratic writers and speakers have already set themselves. They begin to cry out, "The Republaxes. These things are a public ur stakes if we can. A DANGEROUS GAME.

SOBER SECOND THOUGHT. San Diego Union: The signs of the times indicate a reaction among the people. The sober second thought has succeeded to the excited feeling induced by ignorance and prejudice. The daily reiterated misrepresentations of vicious newspapers, and appeals of hungry demagogues to the meanest and lowest passions of the masses have grown stale and tedious, and the people are weary of them. Let this extra session of the California Legislature continue

Petaluma Argus: One of the principal

reasons for convening the Legislature was the alleged failure of Railroad Commis-sioners Humphreys and Carpenter to discharge aright their duties. These charges ook place to-day, the dogs being the lowest mongrels, in which about 100 rats were disatched. The match was under the supervision of Tours, the rat-catcher, who rids the hotels of those officials. The Legislature having been convened, whether needfully or not is now immaterial, it would have been in order for that body to set on foot a rigid investigation into the conduct of those two officials. This would have been but an act of justice both to those officers and the Efforts for Commutation—Murder in the people who elected them. But the Assembly has smothered investigation and PORTLAND, May 4th.—Yesterday T. R. Shanks, seeks to depose these men from office ving near Western Oregon, was thrown from a orse and fatally injured. A dispatch from Thompson's Falls, Mont., gives the particulars of the drowning of three men. Four men started down Clark's Fork in a skiff, bound for Lake Pen d'Orille on a fishing excursion. While descending the stream the men rashly attempted to run the Rock Island rapids, a very dangerous point. The boat was caught in the whirl and capsized, and the men were all carried over the rapids. Three were swept under and perished, but one man managed to reach the shore nearly dead. The bodies of the men were not recovered, and probably never will be. The names of those drowned are Clem Phillips, James O'Dell, D. J. Pardon. E. L. The partisanship in that body has dwindled to an extreme radical measure, To-day a meeting was held by the wholesale importers here in regard to the stamp tax, and a protest to the Government is to be sent forward, in which it is set forth that in their opinion it would be better to increase the duties of import and tax incomes on real estates than to enforce this law, as by its provisions the commerce of this port and the State is at the mercy of the Treasury Office of the State, and it was finally agreed that as telegrams from Mexico could be received here that in the event the Government reinforced the tax, the said parties would tem porarily close their business until such time as they could be assured that the tax would be modified or not enforced.

London, May 4th.—It is no longer doubted that the ship which signaled the City of Rome saved some, if not all, on board the State of Florida. It is calculated that the disaster occurred on the 18th ultimo, at which period the wind was blowing from the east. The boats would drift until rescued. They must have been launched, because they were so fixed that they would not otherwise have floated. The fact that the boats were without gears or oars is regarded as favorable, indicating that the rescuing ship secured the oars and gear and allowed the boats to drift away. One is a lifeboat, No. 1, the other a small, new boat, not numbered. The officers were of the opinion that the State of Florida struck an iceberg, as the Captain of the State of Pennsylvanja reports ice in the region in which the State of Florida is supposed to have been at the time of the disaster. The dynamite theory is not received with any favor whatever. The Supposed Marine Disaster. ion that the State of Florida struck an iceberg, as the Captain of the State of Pennsylvania reports ice in the region in which the State of Florida is supposed to have been at the time of the disaster. The dynamite theory is not received with any favor whatever. An inventory shows that the cargo was shipped by two well-known firms, and all small packages on board are accounted for. The detective reported as awaiting the arrival of the State of Florida was seeking the arrest of an embezzler supposed to be on the vessel. The next news

concerning the fate of the missing vessel is awaited from America, where it is supposed those rescued will be landed. The Captain of the City of Rome explains that when the ship displayed her signals there was little or no wind, and the flags showed badly, and were difficult to read. The City of Rome passed the ship rapidly without replying to the signals.

THOSE RATTLING RESOLUTIONS. A Democrat Who Thinks they Have too

Much Rattle and not Enough Reason. DEAR SIR: Permit me through the col-

Democratic Central Committee of Placer county, which should be styled the Committee of Many Resolutions. The first resolution of Mr. Crutcher's published in the Placer Herald, reads: WHEREAS, The Central and Southern Pacifi Railroad Companies and other corporations by refusing to pay their taxes and by corrupting certain officials, have arrayed themselves against the interests of the State and of the people, and have precipitated the issue as to whether they or the people are masters of the company wealth

You say, Mr. Crutcher, that the Central

of W. M. Crutcher, the Chairman of the

Pacific and Southern Pacific Railroad Companies have corrupted certain officials Now what officials have they corrupted? Has more than one State official taken any action or part in the settlement of taxes If there are, who are they? Next you say That we regard such an act as the compromising of taxes as odious and indefensible, for the reason that it is plainly discrimination and unust. We most sternly condemn the action of the present Attorney-General in agreeing with the railroad companies to accept from them an amount for taxes less than the sum justly and amount for taxes less than the sum justly and legally due. We regard the compromise made by our Board of Supervisors of Placer county, whereby the county lost 30 per cent. of the taxes justly due from the Central Pacific Railroad Company for two years, and the legal and equitable penalties for three years, as no less than an outrage on every citizen and taxpayer of the county.

county. Now, Willie, what did you do when you were a member of the Legislature? Did you not have a law passed by which Placer county compromised the taxes with the Central Pacific Railroad Company? Now, Chairman Willie Crutcher, please answer this question: Which year did the county receive the most taxes, under the law that READING (Pa.), May 4th .- A fire on the Blue | you passed in the Legislature or under the present Board of Supervisors that you convain. In conclusion Mr. Crutcher, would it not be well for you as the leader of the Democratic party in this county, to tell the people just what has been done for them by Carpenter and Humphreys, so they can judge for themselves not, as this is the first Commission that has done anything for us. LOCAL INTELLIGENCE.

SULLIVAN & RAVEKES .- The new firm of Sullivan & Ravekes opened their new store on Second street Saturday last. Elegantly gotten up printed invitations were sent to the principal business men throughout the city to be present in the afternoon. Their best arranged in the city. In size it has a frontage of 46 feet and a depth of 80 teet. The basement, which is used for the storing of oils and leads, is the same size, and has a cement floor. The office in which the firm entertained their friends is large and well appointed. James I. Felter acted as master of ceremonies. He called upon G. W. Chesley, who responded in an earnest manner, addressing himself more particularly to Mr. Sullivan, Sr., a successful, retired merchant of San Francisco, and a millionaire, and who advised his son and partner, Sullivan & Ravekes, to open a branch house in this city. Mr. Chesley congratulated the new firm in behalf of the jobbers, and welcomed them most heartily to Sacramento. He spoke of the continued prosperity of this city, claiming annual trade amounte to more than \$49,000,000. In commerce, he said, Sacramento was second only to Sar Francisco, and far in advance of Oakland and Los Angeles. He also spoke in high terms of the wholesale merchants of the city, naming a number of firms established in 1849, and continuing since that date, namely, Booth & Co., Adams, McNeill & Co. (successors to Sneath & Arnold), Lindley & Co. (formerly Lindley & Frye), Baker & Hamilton, Huntington, Hopkins & Co., and others, all wealthy and successful merchants. He referred to our delightful climate, the beautiful homes of Sacramento and bespoke for the new firm success an He said there was fraternal eeling among the jobbers and wholscale merchants that welcomes all new-comer with capital who come to supply the trade that is constantly coming to this city. A large number of the guests present answered to toasts, and the assemblage did

ectric or galvanic belts in America in curing seases without medicine. W. J. HORNE, In entor and Manufacturer, 191 Wabash avenue Chicago: 762 MARKET STREET, San Francisco. mrl-3p6m&w6m WHICH IS THE FALSIFIER?

J. HORNE IS MAKING ELECTRIC belts under my first two patents of Nov. 11, 1879, and Nov. 9, 1880, and has made no changes but what those patents cover and permit. Within the last year or so he claims slight changes, by adopting as his my own ideas developed in my improved Belt. He has done this without my consent, and attempts making them his by stamping his name on and calling them "Horne's Belt." He confesses to selling "West's Belts." but his "years ago." will reach to the present time, proved by his own publications. I sold him a half interest in my patents on April 16, 1881, and from this date he has advertised the Belt as his, and himself as its inventor, as is proved by Horne's Electric Herald of July, 1881, Oct., 1881, June, 1882, and July, 1883. In these he has cuts with "W. J. Horne's Belt." engraved and "Patented Nov. 11, 1879, and Nov. 9, 1880"—the dates of patents bought of me. Then it was "Horne's Belt." "such as the world never saw." but now it is "discarded because defective." And yet he is now making this identical Belt, in every essential particular. In the same tive." And yet he is now making this identical Belt, in every essential particular. In the same above papers he has engravings of gold medals awarded to "W. J. Horne" by California State Fair, 1880, 1881, for this same Belt. A gold medal nor any medal was awarded to "W. J. Horne" in the State of California. A silver medal was awarded the "San Francisco Magnetic Belt Co." (Horne & West) by State Fair in 1880. A candid public can now decide who falsifies. I hold myself ready to prove the above statements before the public or the law, as I have all the documents in my possession.
